Value of Parents

Who says there's no god on earth??

It's our parents who gave us life they are the LIVING GODS for us. Whom we can worship and trust.

Parents instill in us the moral values without which we are of no use. They act as guiding lights when we are facing problems wide.

They cheer us when we are depressed and remove all our stress. They encourage us when our hopes are lost and give us the strength without any cost.

They may scold us when we are on the wrong path.

But they have no bad intentions in their heart.

They are the ones who love and care.

And such people in this world are very rare.

Blessed are those who have parents with them always and unlucky are those who can't find their parents.

It feels like heaven on earth when we value our parents who gave us birth.

Through this poem, I want to write something.

Never hurt your parents by anytime it my earnest request to all my dear friends.

Please Value Your "PARENTS".

- Baby Drishita Agarwal, III

I don't need words to express....
I don't need tears to shed...
I don't need to ask for a smile...
Or a hand to hold me....
All I need is ...
To be your friend, forever!

- Vekariya Hirva M., V-A

Meri Soch...

...Mera Vidyalaya

I, Drishita Agarwal, Class III, SIS, Whole heartedly congratulate everyone who's been a part of the school's Evolution to one of the greatest institutions of learning in India. The teachers of SPACE GROUP - Thank you for your unflinching support, for always encouraging an environment of intelligent programs and for consistently fueling our curiosities, for aiding us in realizing our shortcoming and patiently helping us more forward, for giving us courage to pursue our strengths.

The love, care and the affection of the teachers and our Headmasters / Sir is like a tree in whose shade I continue to grow. I realize how lucky I have been to have studied in "SPACE INTERNATIONAL SCHOOL".

Time flies, I shall step into the senior section but these treasures will be with me for times to come, to make it famous (My School SIS) through my noble deeds.

It is my HOME and I am forever grateful.

- Drishita Agarwal, III-SIS

Every mother needs a daughter
Someone like her to be.
To dress up and take her out
For all the world to see
To brush her hair so shiny
The pretty bows to tie
To teach her how to clean her room
And how to bake a pie
Then one day when she's older
And finds her love so true
She never will forget the many
Things she'll have her children
My wish for her would be
To have a lovely
Daughter, one who is just like her!

- Patel Kiran, VI-A

Everyday Activities

Art

Activity related to Christmas held in K1 class. The objective of the activity was Christmas brings in lot of fun and joy for everyone, especially for kids. They all try to be good mannered, decorate their Christmas tree in the best possible way so that Santa would be impressed and shower them with gifts. They all enjoyed a lot & took part enthusiastically in this activity.

Joyful Juvenile

This Play

This play - learn method of ABL was organised by Chhaya Bhanushali for Grade 1 & 2 students on the topic **Verb of Grammar**. All the students willingly participate in this activity & learnt a lot with enjoyment & fun. All the students enacted different action words & other partner guess the action.

Let's learn Together

Learning Action Words

Gujarati Vyanjan Evs

Activity of Gujarati vyanjan conducted by Dhara ma'am in grade 1. As Gujarati included from grade 1 children need to learn curves of Gujarati letters. So for that here children are making all the letters with clay. It also helps to develop their fine motor skill. Children enjoyed a lot by playing with clay.

Carry on with Clay

'a' Vowel

Activity of 'a' vowel three letter words was conducted by Pratiksha ma'am in K2. In this activity, children made a tree of three letter words. Through this activity they can recognize & read these words. They made flowers so they enjoyed colouring so much...& they made a very beautiful tree of three letter words.

Enjoying Colouring

Creative task by Champs

Activity under transportation topic covered by Riddhi ma'am in K1. Under this topic they learned land & air transportation & made a small model of land transportation. So they could get the idea about different means of transportation. They eagerly participated in this activity & their response was marvelous.

Learning with Liveliness

Model of Road transportation

Good Homes

This activity was conducted by Palak Parekh for the children of Grade -2 through PBL- Project Based Learning for social studies on the topic of "Good Homes". Students collectively made this project with the help of teacher's guidance. The outcomes of this activity was awesome. They learned about features and importance of good homes which they can implement in practical life.

Delight in Dance

The Christmas was celebrated with a small function for the first time in the school campus. This was a brainchild of Sujata ma'am and John sir. In SGOS Christmas was celebrated with lots of fun and enthusiasm. It was a blend of speech, carols and dance followed by sweets' distribution. The benign presence of **Rev. Father Vinod** added a lot to the celebration who gave an encouraging speech. An excellent video showing the birth of Lord Jesus was also shown during the function. John sir was the co-ordinator of the show. Other contributor teachers were Madhuri ma'am, Vidhi ma'am, Chhaya ma'am, Dhara ma'am. Besides the students, Jalpa ma'am also presented a small speech on the auspicious occasion. Activities like card making and exchanging gifts were arranged for primary grades. The students of primary grades made cards with the theme of THANKS and offered them to their parents. The main attraction of the Christmas was our Santa Claus who distributed sweets to all. These sweets were a special contribution by Arvind sir. It was a result of our teachers and student's cooperation and hard work.

Making of MLV

Space International School has planned to organize MLV i.e. Making Learning Visible for the students of the school. The concept of MLV was shared by the honorable Director, SGOS, Dr. Sujata with the students and the staff left no stone unturned in making it a success. The unique feature of this program is that whatever the students have learned in the last semester is to be exhibited in front of their parents in variety of forms like role play, dance, drama, quiz, picture talk, recitation etc. The use of props will add much sense to the items. The students have been practicing since first week of December. Undoubtedly, the parents' support in the practice sessions at school and even at home is appreciable. The tiny tots have been putting their heart and soul in the rehearsals. Hope they will succeed and their relentless efforts will bear sweet fruits.

Teachers' Training Program: A Step to Revamp Pedagogical Practices

Teaching to the Teachers

To enhance the knowledge and skill is everyone's desire and it can be keenly seen in the teaching fraternity. **Dr Sujata** and **Arvind sir** inspired the teachers of Space to organise a training course for the teachers. For the execution, she selected six teacher trainers: **Pratiksha, Palak, Rahul, John, Vidhi** and **Anindita**. John sir could not execute because of some personal issues. The remaining five teacher trainers practiced to perform in front of their peers in a perfect manner and they succeeded as well.. These teacher trainers had to share their topic and the content to enhance English language skills and teaching skills as well of the teachers' fraternity. This program lasted for almost three weeks. It was conducted regularly on all week days. The duration of every session was one hour.

Let's Start

Motivated by the trainer

It's really very astonishing and challenging for me when I was selected as a resource person for training of my own colleagues. But I can feel within me the change after taking these sessions. It was a boost to my teaching skills and confidence.

It remained quite a different experience to be among faculties. I preferred conversational method for delivering the course content. Very much positive responses have been received by the participants. I felt a new experience. I also learned many things. Only one thing I missed was the grand "Trophy" for the BEST TEACHER TRAINER . I lost it only with the difference of one vote. But next time, I will try my best to

win. Thanks to all the teachers who attended the sessions with spirit and a sense of progress. I feel lucky to be a part of space school.

Parents' Orientation SIS

Parents' orientation SIS was held on 5th Jan, 2017. About 50 parents attended the orientation taken by SIS teachers with the guidance and ceaseless support of Dr. Sujata Wadhwa, Director of SGOS, Shree Arvind Savaliya and Principal Jyoti ma'am. The objective of this session was to guide parents about the content of second semester as well as to make them aware about MLV. The response to the orientation was heroic.

We are ready... Are you ??

A step towards DIGITAL INDIA: An awareness session by Mr. Ravi Vanzara

Enthusiastic to know about JIO

An awareness session about digitisation and technology integration into life was conducted by Mr Ravi Vanzara, JIO Center Manager, Reliance JioInfocomm Ltd. It was organized with a vision to make the school paperless, the vision of most respectable Arvind sir and honorable Sujata ma'am. Mr. Ravi was glad and had a good experience. In fact, he was overwhelmed with the experience of sharing and presenting information as he mentioned to Sujata ma'am personally in the telephonic conversation.

The program was arranged with a purpose to create awareness and benefits of Digitization and it's benefits following the honorable PM's vision of DIGITAL INDIA. The school is looking forward to have such programs in the coming future to achieve the dream of Digital India.

The school management and the staff extend the heartfelt gratitude to Mr. Ravi and team for sharing such valuable information with all.

- Ms. Sujata Wadhwa

Response from Mr. Ravi:

Dear Sujata madam,

It was great experience with your campus. Please let me know if any such session is required in future too. It will be a great pleasure.

Thanks for giving this opportunity!!

Best Regards
Ravi Vanzara
